

MOLD RESTORATION PROCESS

1 CALL BLUSKY

A Project Director will reach out to you following your initial phone call and discuss your concerns. We may recommend a mold test first to give us a foundation for the project.

2 PRE & POST-REMEDIATION TEST RESULTS

We do not test your property in-house for mold. Third party testing ensures pre & post test results with no conflict of interest.

3 RESULTS ARE IN

If the testing company recommends remediation, we schedule a time to inspect your property and prepare an estimate for removal and/or repairs.

4 ESTIMATE APPROVAL

We provide the proposal and ask for a down payment at time of approval - it's usually 50% of the total contract price. Once these are collected, we schedule the work.

5 WORK PREPARATION

Our technicians set up containment around the area, as well as floor protection, air scrubbers and in most cases, a dehumidifier.

6 DEMO/REMOVAL OF MATERIALS

Affected materials are placed in bags while inside containment and carried outside. In some situations, a tunnel is built leading to the outside to prevent cross-contamination.

7 CLEANING THE AREA

We vacuum all surfaces with a HEPA vacuum, then clean surfaces with mold control, apply a stain remover if needed and cover with a mildew resistant paint.

8 POST-REMEDIATION TEST

We complete repairs to the property, including new material installation, painting, and everything in between, followed by a post-test to ensure clearance goals achieved.

9 FINAL WALK THROUGH

We walk the property together to ensure your complete satisfaction. A Certificate of Completion is signed, stating you are happy with our work.

10 FINAL INVOICE AND REVIEW

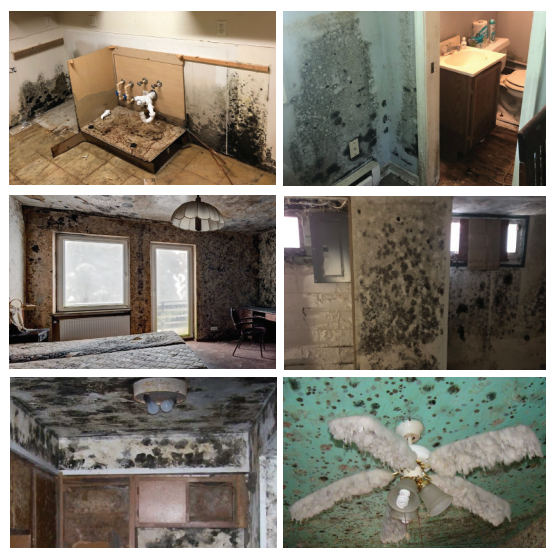

We send you a final invoice at this time and may send you a survey request. We appreciate your honest feedback.

BEFORE

AFTER

Our goals are **consistent communication** and **unmatched quality**. If at any point in time you have questions or concerns, we encourage you to reach out to us.

24/7/365 Emergency Dispatch 800.266.5677 | GoBlusky.com

The Premier Full-Service Restoration Provider in the Nation

BluSky is Ready to Dispatch at a Moment's Notice
