

IMPROVE OUTCOMES WITH INNOVATIVE TECHNOLOGY SOLUTIONS

With technology rapidly advancing, our customers want systems that will scale to meet their future needs. Let Direct Supply's technology experts advise on comprehensive, building-wide systems that keep staff and residents safe and engaged.

From new construction to replacement parts, Direct Supply delivers.

Parts & Service

Find the replacement parts and service you need to keep your systems running

Technology Systems

Discover the systems you need to keep residents and staff safe

TechTrack™

See how your communities stack up with a technology audit and roadmap for future updates

Technology Design

Receive construction documents for integrated low-voltage systems that will adapt to your changing needs

Which Solution is Right for Your Community?

- In an ideal world, how would you like to see technology working to benefit staff and residents in your building?
 - › How could technology help your clinicians deliver exceptional care to your residents?
 - › How could technology help create operational efficiencies in your community?
 - › What obstacles or hurdles do you face in achieving this vision?
- As far as the technology systems you are using today, how do you feel your community ranks against your local competitors?
- With technology advancing so rapidly, how do you stay on top of new technologies that might be useful to you?
- What does your capital investment plan look like for improving the technology systems in your building?

Discover Top Technology Designed for Your Demanding Environment

Nurse Call

Reduce labor costs, improve response times and eliminate alarm fatigue through centralized and silenced notifications.

Wander Management

Provide a safe environment, strengthen security and fully integrate your nurse call, video and door access systems.

Access Control

Easily track door access and credential use while reducing manual costs through efficiency gains.

Video Surveillance

Improve accountability and security with integrated alerts to watch certain events in real-time.

Wireless Locks

Avoid costly rekeying with wireless lock solutions that allow you to easily modify user access.

A/V Theater

From conference rooms and theaters to distributed audio solutions, custom solutions help you maximize impact and minimize complexity.

Area of Refuge

Find the right systems at the right price to better prepare your building.

Structured Cabling

For new buildings, discover the ideal end-to-end cabling infrastructure to support your technology needs.

Networking

Bring your community up to date with the latest networking standards to support business operations and social connections.

“

Everybody is an expert in technology, but not everybody is an expert in Senior Living. That's what sets Direct Supply apart. Direct Supply is knowledgeable, thorough and has not only the client's best interests in mind, but also the security and safety of the residents.
