MISSION STATEMENT

We are family-owned and operated, dedicated to satisfying, and ideally, exceeding customer expectations beyond all else. We are relentlessly focused on improving the lives of our customers through better indoor air quality and improved comfort. Our vast array of filtration products and services are built to help every single indoor space to have fresher, better air quality.

WHO IS FILTERBUY?

CORE VALUES

SERVICE

We create high quality management and a culture of continuous improvement and collaboration. Every job is important and valued.

PERFORMANCE

Our reputation is our most valued asset and our people are the stewards of that reputation - working to strengthen it with the quality of service and their commitment to our customers.

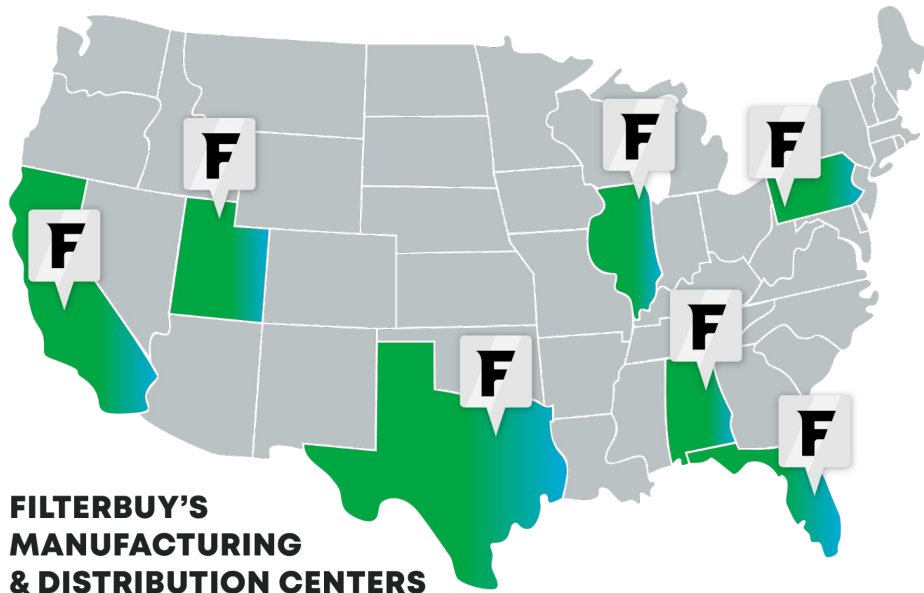

RESULTS

We strive for excellence in every aspect of our jobs with an environment of continuous improvement that rewards hard work, total participation, and teamwork with open communication and mutual accountability.

WHY AIR FILTERS?

- **Improves Indoor Air Quality** - air filters can help to remove pollutants from the air such as dust, pollen, and mold spores. Improved IAQ has been shown to increase worker productivity and result in fewer lost work days.
- **Reduces Product Defects** - air filters can remove particulates in the air that may cause product issues in the manufacturing process.
- **Saves Energy** - when your HVAC system doesn't have to work as hard to circulate clean air, it uses less energy. This can save you money on your energy bills.

**FILTERBUY'S
MANUFACTURING
& DISTRIBUTION CENTERS**

FILTERBUY SNAPSHOT

7 LOCATIONS IN THE US

Because we sell direct it cuts a layer of costs and we pass that savings onto our clients. No middleman means faster delivery and lower costs.

INCREDIBLE SELECTION

We maintain a stock of over 1 million filters so that you don't need to keep unnecessary inventory. We offer over 1,300 filter sizes and configurations.

FAST DELIVERY

We have 7 strategically located distribution centers to get product delivered to you quickly. We now offer same-day and next day-delivery in select markets.

**AND MOST IMPORTANTLY,
PERSONALIZED CUSTOMER SERVICE**

MADE IN THE U.S.A.

**OUR PRODUCTS ARE MADE WITH
MATERIALS SOURCED IN THE U.S.A.**

**WE DESIGN AND MANUFACTURE ALL
OF OUR FILTERS AT ONE OF OUR 7 U.S.
BASED MANUFACTURING FACILITIES**

**WE MARKET AND SELL OUR FILTERS
DIRECT TO U.S. CONSUMERS AND
BUSINESSES**

OUR PLEATED AIR FILTERS

MERV 8 STANDARD

Traps and blocks 90% of airborne particles. Recommended for basic or standard commercial use.

MERV 11 SUPERIOR

Traps and blocks 95% of airborne particles. Recommended for standard or superior commercial use.

MERV 13 OPTIMAL

Traps and blocks 98% of airborne particles. Recommended for superior commercial use and smoke lounges.

M8 ODOR ELIMINATOR R

Remove odor, VOCs, and 90% if airborne particulate matter with activated carbon.

OUR V-CELL AIR FILTERS

MERV 13

MERV 14

MERV 15

The “V” shape of the pleats in the V-Cell allows for a higher surface area and increases the filter’s capacity to capture dust, allergens, and other particles effectively. With the increased surface area and efficient airflow, these filters will last longer than traditional filters before needing replacements, thus reducing maintenance and energy costs.

OUR MINI PLEAT AIR FILTERS

MERV 11

MERV 13

MERV 14

MERV 15

Our mini pleats are constructed with durability and longevity in mind. Filterbuy mini pleat filters are designed with tighter pleats, which allows for a higher packing density of filter media. The compact design results in a filter that can handle larger volumes of air while maintaining a high level of particle removal. With an increased surface area, more particles are trapped and allows for lower air flow resistance, resulting in greater energy cost savings.

OUR RIGID CELL FILTERS

RIGID CELL FILTERS ARE OFFERED WITH OR WITHOUT HEADERS

Filterbuy's growth into the commercial filtration market led to manufacturing Rigid Cell (or Box) filters. These filters are offered in 3 levels of efficiency, MERV 11, MERV 13, and MERV 14.
