## INTRODUCING ServiceSync

### Facilities Management Simplified.

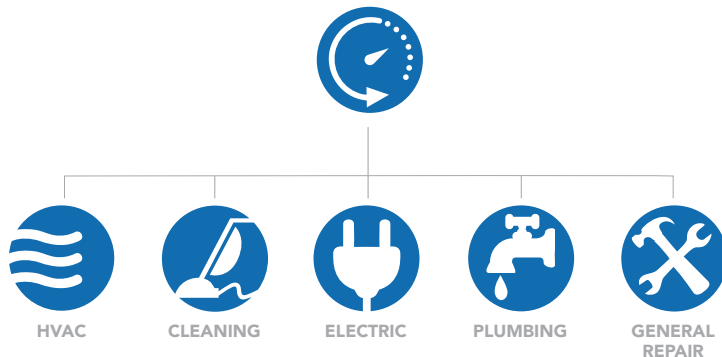

ServiceSync, along with our staff of industry experts, streamlines the process of managing your facility by managing all the vendors, all the contracts, and all the vendor compliance with just a touch of a button. You can access it via computer, smart phone and tablet. This robust program will minimize your headaches so you can focus on what's really important -- your core business. System4 and ServiceSync will take care of the rest -- inside and out.

### Work Order Management

### WORK ORDERS IN SECONDS

- ▶ Improves service delivery with online work orders that are tracked through completion & updated in real-time.
- ▶ Enhances operational efficiency by automating repetitive tasks & allowing management-by-exception.
- ▶ Creates greater visibility & insights on facility spend through data collection and reporting.
- ▶ Lowers hard and soft costs by consolidating vendors, freeing up time & creating Not-To-Exceed amounts for all trades.
