

The Experience

“Grove Menu is an integrated system that is simple to use and helps control production and control cost. It helps reduce labor costs and allows managers to be more efficient. What used to take hours can be done in minutes. It gets the cooks out from behind the desk and in the kitchen doing what they do best.”

- Mark McKenzie – Corporate Director of Dining Services
(45 Assisted Living Facilities)

“Grove Menu is a menu system that is enough, but **not too complicated** for our communities, since we have such a variety of folks managing meal operations, from 12 bed buildings to over 300. Grove Menu provides the ability to standardize across the company with one menu, yet select regional favorites.”

- Melanie Metz, R.D. - Corporate Director of Dining Services, Edgewood
(43 facilities - Independent, Assisted, and Memory Care)

“Our chefs are very pleased with how responsive the Grove team is with customer service and support. They really appreciate how easy the program is to work with and the creativity that is allowed with the selective menu options.”

- Carl Dudley, Executive Chef,
Milestone Retirement Communities LLC

Why Grove Menus

Menus are one of the most important aspects of your business. Most communities don't realize the impact of good menus. One of the top resident complaints, year after year, is food. Grove Menus puts you in control of your expenses and helps you increase customer satisfaction.

1. Reduce Costs

Between food and labor the kitchen is typically the largest expense for communities. Grove Menus provides you with tools to reduce costs and save time. Our average client saves between 5%-10% just on their food bill each month after switching to Grove Menus.

2. Increase Resident Satisfaction

The kitchen is one of the most important components of a successful community, and it presents one of the most undervalued opportunities for improvement in resident satisfaction. The food we eat is one of the most important parts of our day. This is why Grove Menus continues to research food preferences. With over 20 years experience, we have created singular yet pleasing recipes and menus.

3. Customize Options

A customizable menu plan is power in your pocket. Dietary needs, community specific adjustments and personal preferences can be tailored for your circumstances. Grove Menus understands that one size does not fit all, which is why we offer many add-ons and tools allowing communities to create a custom experience.

About The Program

*We have been writing menus for over 20 years.
We have developed a system that is unmatched!*

"Real Food" Recipes – We make every effort to begin with whole foods. Our menus focus on seasonal harvests and regional tastes.

Multiple Menu Types – We offer many different styles of menus from simple and basic to restaurant style and fine dining.

Fully Customized Options – Every community is unique and we offer many options to optimize your menu to fit your needs. If you want multiple entrées, a salad bar, or a myriad of other choices, we have you covered.

Food Service Interface – Grove Menus can automatically import pricing information and UPC codes. You can even place orders right from our web site.

Kitchen Automation – Shopping lists are automatically generated. Recipes use smart scaling. Production sheets, special diet options and tray line sheets are all integrated into the system. A mobile device app is available.

Operational Insights – Our tools allow you to reduce your expenses and better control what is happening in the kitchen.
